

To whom this may concern,

Aqua-Guard Management Inc. is a local business that has been servicing our communities for 30 years! We are a full service swimming pool management company that hires and trains lifeguards to work at over 65 pools located in townhome, apartment, and single family home communities. Our main office is in Schaumburg, IL, but our pool accounts are spread out throughout the suburbs and city of Chicago.

Every spring, we hire 200 plus lifeguards and the majority of our employees are high school, college aged students, teachers, school staff, firefighters and nurses.

We would love to offer this great summer employment opportunity to your students and staff. I have included a few fliers and would appreciate it if you could refer, post, or distribute however you feel fit. You may also make extra copies if needed.

What better way is there to work your summer than outside next to a pool, breathing the fresh air? No experience necessary. We train and certify our employees if needed. Employees must complete a lifeguard certification course and become certified in CPR, First aid, and lifeguard responsibilities. It is a great way to learn basic life skills to carry with you for the rest of your life! And what a great resume builder!

If you have any questions or need additional information, please contact me. Thank you for your time and assistance. Have a great day!
